

KRATOS - TRAUMA RELIEF STRAP INSTRUCTIONS

For your safety, comply strictly with the instructions for use, verification, maintenance and storage. George Taylor & Co. cannot be held liable for any direct or indirect accident occurring as a result of use other than provided for in this notice; do not use this equipment beyond its capabilities!

INSTALLATION

LOCATION:

The suspension straps should be installed where the shoulder strap and the leg strap intersect.

1.

Slip the strap case through the harness loop that contains the leg strap.

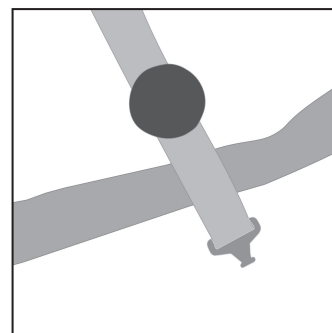

2.

Pass the case through the case strap and choke it down on the harness loop.

3.

Wrap the tabs around one of the harness straps and connect the snaps in order to hold the case in place.

1

Un-Zip the pouches fitted on both sides of harness.

2

Hold the 2 straps together.

3

Connect the 2 straps with each other making a loop with the help of textile buckle.

4

Put your feet in the loop.

5

Stand onto the loop, so that the thigh straps are free.

6

Adjust the sit strap towards the front in order to release pressure and give a seat-posture.
