

Calibrated Slab Weight

Easy fork entry

GT slab weights come with fork entries on either side of the weight, enabling movement of Slab Weight by a wide variety of Pallet Trucks & Forklift Trucks.

Simple Stacking

Top centre bevel allows for easy and secure stacking of slab weights.

Balanced movement

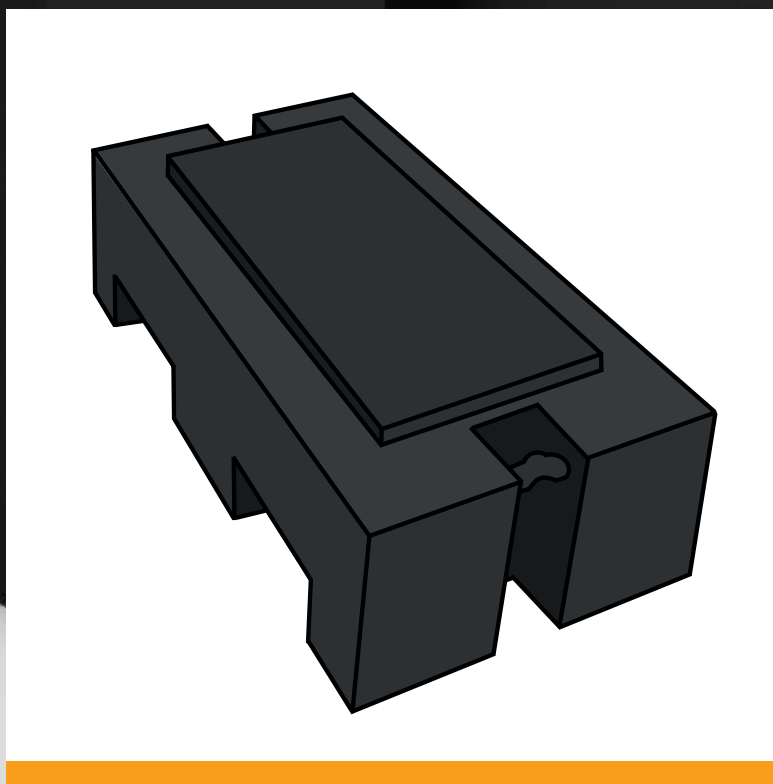

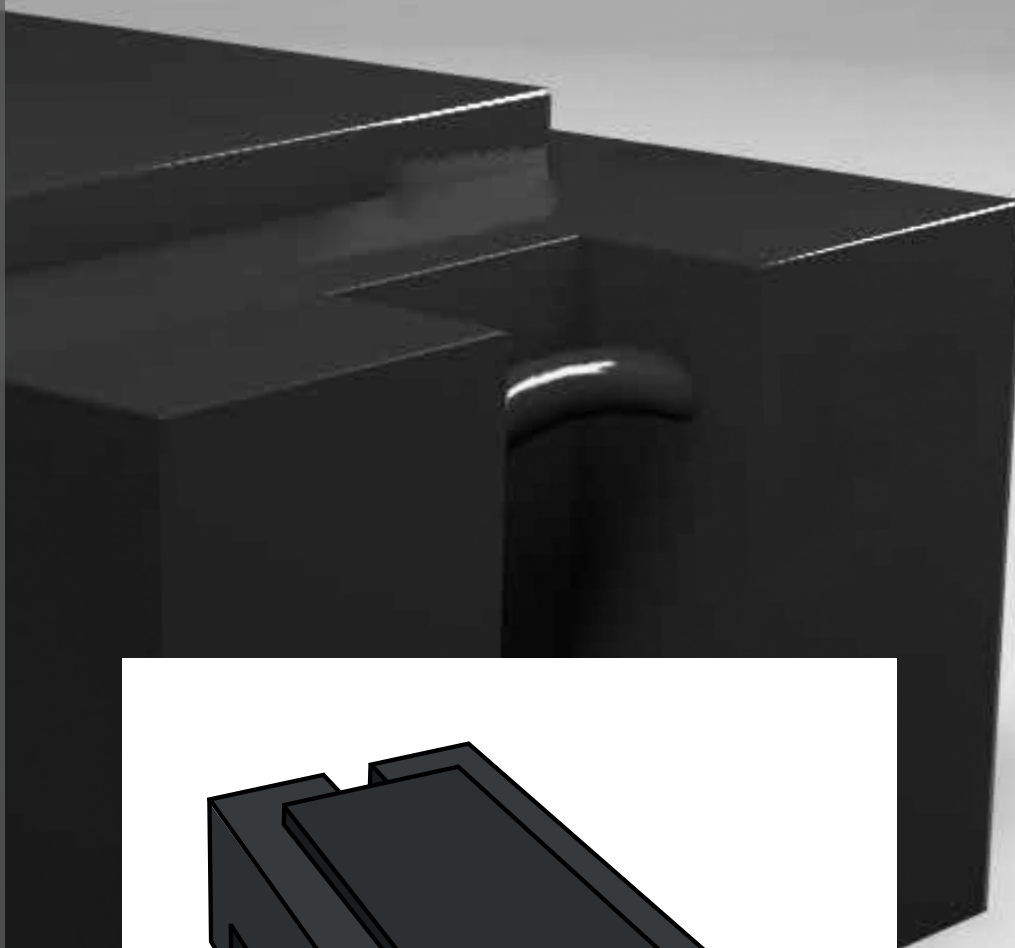

Specially designed side attachment points. These integral points have been located for balanced movement.

Embossed Marking

Marked with weight on the front side of the slab weight e.g. 250KGS.

Weight calibration

Calibration certificates of conformity available for every slab weight.

Calibrated Slab Weight

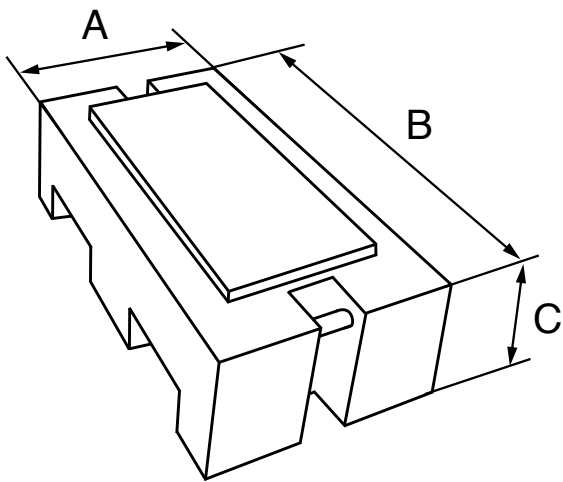

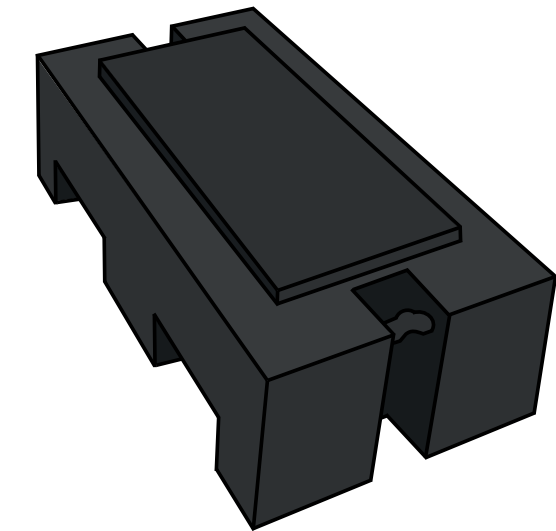

- Cast iron.
- Black lacquer paint finish.
- Marked with weight e.g. 250KGS.
- Calibration certificate of conformity can be supplied with goods.
- Fully stackable, easy manoeuvring via forklift truck or 2 lifting points.
